Photographic Charges:

The photography charge is the fee paid for our professional creativity, the time for your photo and order sessions. We will provide you with at least 20 images to choose from.

Digital photography has greatly altered the photo reproduction process. At Photography by Laurie every image is cropped, color balanced and retouched with computer programs that take time and skill to master. Prints sized 11x14 and larger require more tweaking as more detail is visible in the print. Some large prints still require hand retouching, which is included in our prices.
